Summary

Frontend Developer with **2 years** of experience in building responsive and user-friendly web applications. Skilled in **React.js**, **Next.js**, **Redux**, and **Tailwind CSS** with a strong focus on creating reusable components and optimizing performance. Experienced in integrating **RESTful APIs** and delivering intuitive designs that enhance user experience and reliability.

Work Experience

Oodles Technologie | Sr. Associate Consultant - Frontend Development February 2025 - Present

- Built and optimized scalable frontend features using **React**, **Vite**, **Material UI**, **Tailwind CSS**, **AG Grid**, **React Query**, and **LiveKit**, ensuring high performance, reusability, and responsive design.
- Collaborated with cross-functional teams to deliver **real-time, data-driven applications**, improving usability, streamlining workflows, and enhancing overall platform reliability.

Optimite Technologie | Frontend Developer July 2023 - June 2024

- Built **responsive, AI-driven web apps** using **React.js**, **Next.js**, **Tailwind CSS**, **BootStrap**, **Redux**, and **JavaScript (ES6+)**. Developed scalable UI components, integrated RESTful APIs, and implemented real-time state management, reducing doctors' review time by **40%** and improving patient safety by **15%**.
- Wrote **clean, high-performance code** with Git/GitHub in agile workflows, ensuring faster releases and smooth team collaboration. Boosted user engagement by **20%** through responsive design and interactive AI-powered features.

Projects

CloserXpert

React, Tailwind CSS, React Query, Twilio, LiveKit, WebSockets

- Built a **role-based AI sales enablement platform** (Sales, Business) that allowed creation and testing of AI agents for customer interactions through voice and text, with real-time call handling for appointment booking, transfers, and AI-driven practice sessions with feedback.
- Designed an **interactive sales dashboard** displaying performance, deals, scores, and leaderboards for setters and closers, improving training productivity, and providing managers with actionable insights.

Future AGI

React, Material UI, AG Grid, Redux

- Built **high-performance, scalable UIs** for a Generative AI lifecycle platform, streamlining dataset evaluation, prompt generation, optimization, and model evaluation. Delivered **real-time components** for monitoring, tracing, and alerting to proactively detect errors, ensuring safety, compliance, and observability.
- Developed **scalable, user-friendly interfaces** with dynamic tables and advanced filtering for seamless data exploration. Collaborated with product, design, and backend teams to create a **comprehensive AI prototyping environment**.

Datym

Django, HTML, CSS, JavaScript, Pinecone, Streamlit

- Built a platform to manage medical conferences by storing abstracts and posters in a vector database, enabling efficient data retrieval, analysis, and user access to conference content in structured table formats.
- Implemented features for note-taking, row selection, saving/exporting findings, and narrating multiple saved searches using AI, enhancing usability and research productivity.

Prescription Cross Check

Next.js, Tailwind CSS, Context API

- Developed an AI-based system that evaluates the suitability of prescribed medications based on patient health information, allergies, and existing conditions, providing real-time feedback on medication appropriateness.
- Improved patient safety and treatment accuracy by 15% through automated validation and decision support, reducing risks from incorrect prescriptions.

Skills

Programming Languages:

JavaScript | TypeScript | HTML5 | CSS

Frameworks & Libraries:

Next.js | React.js | Tailwind CSS | Bootstrap | Material UI | Redux | AG Grid | Live Kit

Backend & Database:

MongoDB | Node.js | JWT

Tools & Platforms:

Git | GitHub | GitLab | Vs Code | Cursor | Postman | npm | yarn | Notion | Linear | Windows | Linux

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya Bhopal | B.Tech

Score - 78.5% 2017 - 2021

Sri Anugraha Narayan Singh College Motihari | 12th BSEB

Score - 60% 2015 - 2017

Additional Information

- Languages:** English | Hindi
- Nationality:** Indian
- DOB:** 13 Nov 2000
- Certification:** Full-Stack Web Development in MERN
- Soft Skills:** Strong problem-solving | communication | teamwork skills
- Availability:** Immediate Joiner
