

# Niketan Wadaskar

Frontend developer

📍 Pune, Maharashtra   ✉ wadaskarniketan1998@gmail.com   📞 7387162902   🌐 Github   🔗 LinkedIn  
🔗 LeetCode   🇮🇳 Indian

## PROFILE

**Dynamic Frontend Developer** with 3.5+ years of experience and a proven ability to deliver high-quality, scalable user interfaces and efficient code solutions. Skilled in **React.js**, **Next.js**, **Node.js**, and **Express.js**, with a strong focus on performance optimization and seamless user experiences. Experienced in collaborating across teams to meet project milestones effectively. Continuously committed to learning and adopting the latest technologies and best practices in software development.

## EDUCATION

**Abha Gaikwad-Patil College of Engineering, RTMN University.** 2015 – 2019  
*Bachelor of Engineering*

## WORK EXPERIENCE

**Inference Tech**    04/2025 – Present  
*Full stack Developer* Noida, India

- **Feature Implementation:** Built and rolled out dynamic user-focused features using **React.js + TypeScript**, increasing active engagement by 20%.
- **API Handling:** Integrated and optimized REST APIs to ensure smooth frontend-backend data flow, cutting latency by 25%.
- **App Performance:** Tuned frontend rendering and API calls, achieving up to 30% faster load times.
- **Collaborative Delivery:** Worked with designers, backend engineers, and product teams to deliver production-ready features on schedule.

**Miraki Tech**    05/2024 – 04/2025  
*Full stack Developer* Hyderabad, India

- **Feature Development:** Designed and implemented new features with **React.js + TypeScript**, boosting user engagement by 20%.
- **Backend Integration:** Integrated REST APIs, improving backend communication and cutting data retrieval time by 25%.
- **Performance Optimization:** Optimized API calls and frontend performance, improving page load speed by 30%.
- **Team Collaboration:** Worked with UI/UX, product, and backend teams to deliver features on schedule.
- **Issue Resolution:** Fixed bugs and performance issues, enhancing app stability and user satisfaction by 15%.

**Optimite**    10/2022 – 02/2024  
*Frontend Developer* Gurgaon, India

- **UI Development:** Built responsive UIs with **React.js**, **Next.js**, and **Tailwind CSS**, boosting mobile traffic and engagement by 25%.
- **State Management:** Implemented **Redux** for complex state, reducing bugs by 30% and improving data consistency.
- **Cross-Team Collaboration:** Worked with design and backend teams to turn mockups into pixel-perfect components, cutting dev time by 15%.
- **Backend Development:** Developed **Node.js + Express** server logic, optimizing response times by 20% for smooth app performance.

- **Feature Development:** Added 5+ major features, driving 15% product growth and keeping the app competitive.

## Varasol Softtech LLP

Front End Developer Intern

04/2022 – 09/2022

Bengaluru, India

- **Web Development:** Built and enhanced responsive web pages using HTML5, CSS3, and
- **React.js Collaboration:** Worked closely with senior developers to implement dynamic features and resolve UI issues.

## SKILLS

---

ReactJS | Nextjs | Node JS | JavaScript | Typescript | HTML | CSS | Responsive Web Design | UI/UX Design | Redux | REST APIs | Tailwind CSS | Git/GitHub | Performance Optimization | MongoDB | Hooks | DSA | Firebase | Material UI | Yup | Redux Toolkit | Shadcn | React Hook Form

---

## PROJECTS

---

### Beebus— Holiday & Travel Package Booking Platform

A web platform for browsing, booking, and managing travel/holiday packages (React + Next.js)

- Developed core UI and package booking flows using **React + Next.js** with reusable components.
- Built multi-step forms with validations for package selection, traveler info, and payment.
- Integrated APIs for package details, availability, pricing, and user authentication.
- Optimized performance, responsiveness, and overall UX across devices.
- Handled bug fixes, feature updates, and maintained production-ready builds

### Hubeco — Eco-product Marketplace [🔗](#)

A web platform for buying and selling eco-friendly building materials and sustainable products. Features product listings, vendor management, and a smooth shopping experience.

- Built the main UI using **React + Next.js** with clean, reusable components.
- Integrated REST APIs and handled product/user/order flows.
- Added backend support where needed using **Node.js/Express**.
- Optimized performance, responsiveness, and overall UX.
- Helped with production debugging, updates, and feature improvements.

### Assuredsum— Loan Application Platform [🔗](#)

A digital lending platform with automated document verification and secure onboarding.

- Built a smooth multi-step form with real-time validations and clean UI.
- Integrated **DigiLocker** for secure document retrieval and verification.
- Implemented **Aadhaar verification** using image-recognition workflows.
- Added **PAN data retrieval** and **ITR integration** for automated financial checks.
- Improved performance, state management, and API-driven data flow across the app.
